FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2021

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Direct Selling Acquisition Corp.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

001-40831
(Commission File Number)

86-3676785
(I.R.S. Employer
Identification Number)

5800 Democracy Drive
Plano, TX
(Address of principal executive offices)

75024
(Zip Code)

Registrant's telephone number, including area code: (214) 308-6020

Not Applicable
(Former name or former address, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class:	Trading Symbol:	Name of Each Exchange on Which Registered:
Units, each consisting of one share of Class A common stock and one-half of one redeemable warrant	DSAQ.U	New York Stock Exchange
Class A Common Stock, par value \$0.0001 per share	DSAQ	New York Stock Exchange
Redeemable warrants, each warrant exercisable for one share of Class A common stock, each at an exercise price of \$11.50 per share	DSAQ.WS	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, anon-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
 Non-accelerated filer Smaller reporting company
 Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new

or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 8, 2021, 23,000,000 shares of Class A common stock, par value \$0.0001 per share, and 5,750,000 shares of Class B common stock, par value \$0.0001 per share, were issued and outstanding, respectively.

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)**

Note 1—Organization, Business Operations and Going Concern

Direct Selling Acquisition Corp. (the “Company”) is a newly organized, blank check company incorporated as a Delaware corporation on March 9, 2021, for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar Business Combination with one or more businesses (the “Business Combination”). The Company has not selected a Business Combination target. The Company may pursue an initial Business Combination target in any business or industry.

As of June 30, 2021, the Company had not commenced operations. All activity for the period from March 9, 2021 (inception) through June 30, 2021 relates to the Company’s formation and the Initial Public Offering (“IPO”) (as defined below). The Company will not generate operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the IPO. The Company has selected December 31 as its fiscal year end.

The Company’s sponsor is DSAC Partners LLC, a Delaware limited liability company (the “Sponsor”).

The registration statement for the Company’s IPO was declared effective on September 23, 2021 (the “Effective Date”). On September 28, 2021, the Company consummated its IPO of 23,000,000 units (the “Units”), including the issuance of 3,000,000 Units as a result of the underwriters’ exercise of their over-allotment option in full. Each Unit consists of one share of Class A common stock of the Company, par value \$0.0001 per share (the “Class A Common Stock”), and one-half of one redeemable warrant of the Company (each whole warrant, a “Warrant”), with each Warrant entitling the holder thereof to purchase one share of Class A Common Stock for \$11.50 per share, subject to adjustment. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$230,000,000 which is discussed in Note 3.

Simultaneously with the closing of the IPO, pursuant to the Private Placement Warrants Purchase Agreement, the Company completed the private sale of 11,700,000 warrants (the “Private Placement Warrants”) to the Sponsor at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$11,700,000. The Private Placement Warrants are identical to the Warrants included as part of the Units sold in the IPO, except that the Private Placement Warrants, so long as they are held by the Sponsor or its permitted transferees, (i) are not redeemable by the Company, (ii) may not (including the shares of Class A Common Stock issuable upon exercise of the warrants), subject to certain limited exceptions, be transferred, assigned or sold until 30 days after the completion of the Company’s initial Business Combination, (iii) may be exercised on a cashless basis and (iv) are entitled to registration rights. No underwriting discounts or commissions were paid with respect to such sale. The issuance of the Private Placement Warrants was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act of 1933, as amended.

A total of \$234,600,000 was placed in a U.S.-based trust account maintained by Continental Stock Transfer & Trust Company, acting as trustee.

The initial Business Combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the net assets held in the Trust Account (as defined below) (net of amounts disbursed to management for working capital purposes and excluding the amount of any deferred underwriting commissions held in trust) at the time of signing the agreement to enter into the initial Business Combination. However, the Company will only complete such Business Combination if the post transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the “Investment Company Act”). There is no assurance that the Company will be able to successfully effect a Business Combination.

Table of Contents

Upon the closing of the IPO, management has agreed that \$10.20 per Unit sold in the IPO, including the proceeds of the sale of the Private Placement Warrants, will be held in a Trust Account ("Trust Account") and will be invested only in U.S. government securities with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Except with respect to interest earned on the funds held in the Trust Account that may be released to the Company to pay its taxes, the proceeds from the IPO and the sale of the Private Placement Warrants will not be released from the Trust Account until the earliest of (i) the completion of the initial Business Combination, (ii) the redemption of the public shares if the Company is unable to complete the initial Business Combination within 15 months from the closing of the IPO (or 18 months from the closing of the IPO if the Company extends the time to complete a business combination by depositing into the Trust Account for a three-month extension \$2,300,000 (\$0.10 per share), subject to applicable law, and (iii) the redemption of the public shares properly submitted in connection with a stockholder vote to amend the Company's amended and restated certificate of incorporation to modify the substance or timing of the Company's obligation to redeem 100% of the public shares if the Company has not consummated an initial Business Combination within 15 months from the closing of the Proposed Public Offering (or 18 months from the closing of the Proposed Public Offering if we extend the time to complete a business combination by depositing into the trust account for a three-month extension \$2,300,000 (\$0.10 per share) or with respect to any other material provisions relating to stockholders' rights or pre-initial Business Combination activity. The proceeds deposited in the Trust Account could become subject to the claims of the Company's creditors, if any, which could have priority over the claims of the Company's public stockholders.

The Company will provide its public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of the initial Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) without a stockholder vote by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a proposed Business Combination or conduct a tender offer will be made by the Company, solely in the Company's discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require the Company to seek stockholder approval under applicable law or stock exchange listing requirements. The Company will provide its public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of the initial Business Combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account calculated as of two business days prior to the consummation of the initial Business Combination, including interest (which interest shall be net of taxes payable and less up to \$100,000 to pay dissolution expenses), divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the Trust Account is initially \$10.20 per public share.

The shares of common stock subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the IPO, in accordance with Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the issued and outstanding shares voted are voted in favor of the Business Combination.

The Company will have only 15 months from the closing of the IPO (or 18 months from the closing of the IPO if the Company extends the time to complete a business combination by depositing into the Trust Account for a three-month extension \$2,300,000 (\$0.10 per share) or any extended period of time that the Company may have to consummate an initial Business Combination as a result of an amendment to the Company's amended and restated certificate of incorporation (the "Combination Period") to complete the initial Business Combination. If the Company is unable to complete the initial Business Combination within the Combination Period, the Company will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable and less up to \$100,000 to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, liquidate and dissolve, subject, in each case, to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the warrants, which will expire worthless if the Company fails to complete its initial Business Combination within the Combination Period.

Table of Contents

The initial stockholders, Sponsor, officers and directors have entered into a letter agreement with the Company, pursuant to which they have agreed to (i) waive their redemption rights with respect to any founder shares and public shares they hold in connection with the completion of the initial Business Combination, (ii) waive their redemption rights with respect to any founder shares and public shares they hold in connection with a stockholder vote to approve an amendment to the Company's amended and restated certificate of incorporation to modify the substance or timing of the Company's obligation to redeem 100% of the public shares if the Company has not consummated an initial Business Combination within the Combination Period or with respect to any other material provisions relating to stockholders' rights or pre-initial Business Combination activity and (iii) waive their rights to liquidating distributions from the Trust Account with respect to any founder shares they hold if the Company fails to complete its initial Business Combination within the Combination Period or any extended period of time that the Company may have to consummate an initial Business Combination as a result of an amendment to the Company's amended and restated certificate of incorporation (an "Extension Period") (although they will be entitled to liquidating distributions from the Trust Account with respect to any public shares they hold if the Company fails to complete its initial Business Combination within the prescribed time frame) and (iv) vote any founder shares held by them and any public shares purchased during or after the IPO (including in open market and privately-negotiated transactions) in favor of the initial Business Combination.

The Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.20 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.20 per public share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act. However, the Company has not asked the Sponsor to reserve for such indemnification obligations, nor has the Company independently verified whether the Sponsor has sufficient funds to satisfy its indemnity obligations and the Company believes that the Sponsor's only assets are securities of the Company. Therefore, the Company cannot assure you that the Sponsor would be able to satisfy those obligations.

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

[Table of Contents](#)

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Liquidity and Capital Resources

As of June 30, 2021, the Company had \$25,000 of cash in its operating bank account and working capital deficit of \$105,619.

The Company's liquidity needs up to June 30, 2021 had been satisfied through a payment from the Sponsor of \$25,000 for the Founder Shares (see Note 5) and borrowings under the promissory note (the "Promissory Note") of \$25,000.

In order to finance transaction costs in connection with a Business Combination, the Company's Sponsor or an affiliate of the Sponsor or certain of the Company's officers and directors may, but are not obligated to, provide the Company Working Capital Loans, as defined below (see Note 5). As of June 30, 2021, there were no amounts outstanding under any Working Capital Loans.

After consummation of the IPO on September 28, 2021, the Company had approximately \$2.5 million in its operating bank account and working capital of approximately \$1.6 million.

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Note 2 — Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the period presented. The interim results for the period from March 9, 2021 (inception) through June 30, 2021 are not necessarily indicative of the results to be expected for the year ending December 31, 2021 or for any future periods.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

[Table of Contents](#)

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had \$25,000 in cash and did not have any cash equivalents as of June 30, 2021.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Deposit Insurance Corporation coverage limit of \$250,000. At June 30, 2021, the Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Promissory Note - Related Party

At June 30, 2021 the amount due to a related party for the Promissory Note was \$25,000. At September 28, 2021, (the date of the IPO) the amount due to a related party for the Promissory Note was \$110,000. This amount was repaid in full on September 29, 2021.

Deferred Offering Costs

Deferred offering costs consist of accounting and legal expenses incurred through the balance sheet date that are directly related to the IPO. Deferred offering costs will be allocated to the separable financial instruments issued in the IPO based on a relative fair value basis, compared to total proceeds received. Upon completion of the IPO, offering costs associated with any warrant liabilities will be expensed, and presented as non-operating expenses in the statement of operations and offering costs associated with the Class A common stock will be charged to stockholders' equity. Accordingly, on September 28, 2021, offering costs totaling \$13,140,543 (consisting of \$4,600,000 of underwriting fees, \$8,050,000 of deferred underwriting fees and \$490,543 of other offering costs) were recognized with \$505,566, allocated to the Warrants and Private Placement Warrants, and expensed and \$12,634,977 netted with the proceeds of the IPO in stockholder's equity.

Class A Common Stock Subject to Possible Redemption

At June 30, 2021 there were no Class A common stock outstanding. As discussed in Note 3, all of the 23,000,000 Class A common stock sold as part of the Units in the IPO contain a redemption feature which allows for the redemption of such public shares in connection with the Company's liquidation, if there is a stockholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's amended and restated certificate of incorporation. In accordance with ASC 480, conditionally redeemable Class A common stock (including shares of Class A common stock that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity's equity instruments, are excluded from the provisions of ASC 480. Although the Company did not specify a maximum redemption threshold, its charter provides that currently, the Company will not redeem its public shares in an amount that would cause its net tangible assets (stockholders' equity) to be less than \$5,000,001. However, the threshold in its charter would not change the nature of the underlying shares as redeemable and thus public shares would be required to be disclosed outside of permanent equity. Accordingly, on September 28, 2021, 23,000,000 shares of Class A common stock subject to possible redemption at the redemption amount were presented at redemption value as temporary equity, outside of the stockholders' deficit section of the Company's balance sheet.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value (\$10.20 per share) at the end of each reporting period. Such changes are reflected in additional paid-in capital, or in the absence of additional capital, in accumulated deficit.

[Table of Contents](#)

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the balance sheet, primarily due to their short-term nature.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, "Derivatives and Hedging". For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the grant date and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

Warrants

At June 30, 2021 there were no warrants outstanding. The Company accounts for the 23,200,000 warrants issued in connection with the IPO and private placement in accordance with the guidance contained in FASB ASC 815 "Derivatives and Hedging" whereby under that provision the warrants do not meet the criteria for equity treatment and must be recorded as a liability. Accordingly, the Company classifies the warrant instruments as a liability at fair value and adjust the instruments to fair value at each reporting period. This liability will be re-measured at each balance sheet date until the warrants are exercised or expire, and any change in fair value will be recognized in the Company's statement of operations. The fair value of warrants will be estimated using a binomial valuation model. The valuation model utilizes inputs and other assumptions and may not be reflective of the price at which they can be settled. Such warrant classification is also subject to re-evaluation at each reporting period.

Income Taxes

The Company accounts for income taxes under FASB ASC 740, "Income Taxes" ("ASC 740"). ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized.

ASC 740 also clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim period, disclosure and transition.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of June 30, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company has identified the United States as its only "major" tax jurisdiction.

Table of Contents

The Company is subject to income tax examinations by major taxing authorities since inception. These examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with federal and state tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

The provision for income taxes was deemed to be immaterial for the period from March 9, 2021 (inception) through June 30, 2021.

Recent Accounting Standards

In August 2020, the FASB issued Accounting Standards Update ("ASU") No. 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity ("ASU 2020-06"), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on September 28, 2021. Adoption of the ASU did not impact the Company's financial position, results of operations or cash flows.

The Company's management does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

Note 3 — Initial Public Offering

Units

On September 28, 2021, the Company consummated its IPO of 23,000,000 Units. Each Unit consists of one share of Class A common stock of the Company, par value \$0.0001 per share, and one-half of one redeemable warrant of the Company, each whole warrant entitling the holder thereof to purchase one share of Class A common stock for \$11.50 per share. The Units were sold at a price of \$10.00 per unit, generating gross proceeds to the Company of \$230,000,000.

Warrants

Each whole Warrant entitles the holder to purchase one share of the Company's Class A common stock at a price of \$11.50 per share, subject to adjustment as described herein. In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any founder shares held by the Sponsor or its affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Class A common stock during the 20 trading day period starting on the trading day after the day on which the Company consummates its initial Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the Warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described under "Redemption of warrants for cash" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

The Warrants will expire at 5:00 p.m., New York City time on the Warrant expiration date, which is five years after the completion of the initial Business Combination or earlier upon redemption or liquidation. On the exercise of any Warrant, the Warrant exercise price will be paid directly to the Company and not placed in the Trust Account.

Table of Contents

The Company will not be obligated to deliver any Class A common stock pursuant to the exercise of a Warrant and will have no obligation to settle such Warrant exercise unless a registration statement under the Securities Act with respect to the Class A common stock underlying the Warrants is then effective and a prospectus relating thereto is current, subject to the Company's satisfying the Company's obligations described below with respect to registration. No Warrant will be exercisable and the Company will not be obligated to issue a share of Class A common stock upon exercise of a Warrant unless the share of Class A common stock issuable upon such Warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the Warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a Warrant, the holder of such Warrant will not be entitled to exercise such Warrant and such Warrant may have no value and expire worthless. In no event will the Company be required to net cash settle any Warrant. In the event that a registration statement is not effective for the exercised Warrants, the purchaser of a Unit containing such Warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such Unit.

The Company has agreed that as soon as practicable, but in no event later than 15 business days after the closing of the initial Business Combination, the Company will use its best efforts to file with the SEC and have an effective registration statement covering the shares of Class A common stock issuable upon exercise of the Warrants and to maintain a current prospectus relating to those shares of Class A common stock until the Warrants expire or are redeemed, as specified in the Warrant agreement. If a registration statement covering the Class A common stock issuable upon exercise of the Warrants is not effective by the 60th business day after the closing of the initial Business Combination, Warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise Warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the shares of Class A common stock are at the time of any exercise of a Warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of public Warrants who exercise their Warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elect, it will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of warrants for cash

Once the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the closing price of the common stock equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant for any 20 trading days within a 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders.

The Company will not redeem the warrants as described above unless an effective registration statement under the Securities Act covering the Class A common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by the Company, they may exercise their redemption right even if they are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Note 4 — Private Placement

Simultaneously with the closing of the IPO, the Company's Sponsor has purchased an aggregate of 11,700,000 Private Placement Warrants, each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.00 per warrant, or \$11,700,000 in the aggregate.

Note 5 — Related Party Transactions

Founder Shares

On June 7, 2021, the Sponsor paid \$25,000 of deferred offering costs on behalf of the Company in exchange for the Company's Class common stock 5,750,000 shares of Common stock (the "founder shares"). The number of founder shares outstanding was determined based on the expectation that the total size of the IPO would be a maximum of 23,000,000 Units if the underwriters' over-allotment option was exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after the IPO.

The initial stockholders, officers and directors have agreed not to transfer, assign or sell any founder shares held by them until the earlier to occur of: (1) one year after the completion of the initial Business Combination and; (2) the date on which the Company completes a liquidation, merger, stock exchange, reorganization or other similar transaction after the initial Business Combination that results in all of the public stockholders having the right to exchange their shares of common stock for cash, securities or other property. Any permitted transferees would be subject to the same restrictions and other agreements of the Sponsor with respect to any founder shares (the "Lock-up"). Notwithstanding the foregoing, if the closing price of Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, the founder shares will be released from the lock-up.

Promissory Note — Related Party

The Sponsor agreed to loan the Company up to \$300,000 to be used for a portion of the expenses of the IPO. These loans are non-interest bearing, unsecured and due at the earlier of December 31, 2021 or the closing of the IPO. As of June 30, 2021, the Company has borrowed \$25,000 under the Note.

Working Capital Loans

In order to finance transaction costs in connection with an intended initial Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required (the "Working Capital Loans"). If the Company completes its initial Business Combination, the Company would repay the Working Capital Loans. In the event that the initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay the Working Capital Loans but no proceeds from the Trust Account would be used to repay the Working Capital Loans. Up to \$1,500,000 of the Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants. Except as set forth above, the terms of the Working Capital Loans, if any, have not been determined and no written agreements exist with respect to the Working Capital Loans. Prior to the completion of the initial Business Combination, the Company does not expect to seek loans from parties other than the Sponsor or an affiliate of the Sponsor as the Company does not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in the Trust Account. At June 30, 2021, no such Working Capital Loans were outstanding.

Administrative Service Fee

The Company has entered into an administrative services agreement on the effective date of the registration statement for the IPO pursuant to which the Company will pay an affiliate of the Sponsor a total of \$10,000 per month for office space, secretarial and administrative services provided to members of the Company's management team. Upon completion of the Company's initial Business Combination or its liquidation, the Company will cease paying these monthly fees. As of June 30, 2021, no such monthly fees have been incurred.

Note 6 — Commitments

Registration Rights

Table of Contents

The holders of the (i) founder shares, which were issued in a private placement prior to the closing of the IPO, (ii) Private Placement Warrants, which were issued in a private placement simultaneously with the closing of the IPO and the shares of Class A common stock underlying such Private Placement Warrants and (iii) Private Placement Warrants that may be issued upon conversion of Working Capital Loans will have registration rights to require the Company to register a sale of any of the Company's securities held by them pursuant to a registration rights agreement signed on the effective date of the IPO. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the Company's completion of the initial Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriters Agreement

The underwriters were paid a cash underwriting discount of two percent (2%) of the gross proceeds of the IPO, or \$4,600,000. Additionally, the underwriters will be entitled to a deferred underwriting discount of 3.5% or \$8,050,000 of the gross proceeds of the IPO held in the Trust Account upon the completion of the Company's initial Business Combination subject to the terms of the underwriting agreement.

Note 7 — Stockholders' Equity

Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share. As of June 30, 2021, there were no shares of preferred stock issued or outstanding.

Class A Common Stock

The Company is authorized to issue 380,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. As of June 30, 2021, there were no shares of Class A common stock issued or outstanding.

Class B Common Stock

The Company is authorized to issue 20,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of the Class B common stock are entitled to one vote for each share. As of June 30, 2021, there were 5,750,000 shares of Class B common stock issued and outstanding.

The shares of Class B common stock will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of the initial Business Combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock or equity-linked securities are issued or deemed issued in connection with the initial Business Combination, the number of shares of Class A common stock issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of Class A common stock outstanding after such conversion (after giving effect to any redemptions of shares of Class A common stock by public stockholders), including the total number of shares of Class A common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any shares of Class A common stock or equity-linked securities or rights exercisable for or convertible into shares of Class A common stock issued, or to be issued, to any seller in the initial Business Combination and any Private Placement Warrants issued to the Sponsor, executive officers or directors upon conversion of Working Capital Loans, provided that such conversion of founder shares will never occur on a less than one-for-one basis.

[Table of Contents](#)

Note 8 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date through the date that the financial statement was available to be issued. Except for the information disclosed in the following paragraphs, the Company did not identify any subsequent events that would have required adjustment to or disclosure in the financial statements.

On September 28, 2021, the Company consummated its IPO of 23,000,000 units (the “Units”), including the issuance of 3,000,000 Units as a result of the underwriters’ exercise of their over-allotment option in full. Each Unit consists of one share of Class A common stock of the Company, par value \$0.0001 per share (the “Class A Common Stock”), and one-half of one redeemable warrant of the Company (each whole warrant, a “Warrant”), with each Warrant entitling the holder thereof to purchase one share of Class A Common Stock for \$11.50 per share, subject to adjustment.

Simultaneously with the closing of the IPO, pursuant to the Private Placement Warrants Purchase Agreement, the Company completed the private sale of 11,700,000 warrants (the “Private Placement Warrants”) to the Sponsor at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$11,700,000.

A total of \$234,600,000 was placed in a U.S.-based trust account maintained by Continental Stock Transfer & Trust Company, acting as trustee.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

References to the “Company,” “Direct Selling Acquisition Corp.,” “our,” “us” or “we” refer to Direct Selling Acquisition Corp. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited interim condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company’s final prospectus for its Initial Public Offering filed with the U.S. Securities and Exchange Commission (the “SEC”). The Company’s securities filings can be accessed on the EDGAR section of the SEC’s website at www.sec.gov. Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a blank check company incorporated in Delaware on March 9, 2021. We were formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). We are an emerging growth company and, as such, we are subject to all of the risks associated with emerging growth companies.

Table of Contents

Our sponsor is DSAC Partners LLC, a Delaware limited liability company (the “Sponsor”). The registration statement for our Initial Public Offering was declared effective on September 23, 2021. On September 29, 2021, we consummated our Initial Public Offering of 23,000,000 units (the “Units” and, with respect to the Class A common stock included in the Units being offered, the “Public Shares”), which includes the exercise in full of the underwriters’ option to purchase 3,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$230.0 million, and incurring offering costs of approximately \$13.3 million, of which approximately \$8.1 million was for deferred underwriting commissions.

Simultaneously with the closing of the Initial Public Offering, we consummated the private placement (“Private Placement”) of 11,700,000 warrants (each, a “Private Placement Warrant” and collectively, the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant to the Sponsor, generating proceeds of \$11.7 million.

Upon the closing of the Initial Public Offering and the Private Placement, \$234.6 million (\$10.20 per Unit) of the net proceeds of the sale of the Units in the Initial Public Offering and of the Private Placement Warrants in the Private Placement were placed in a trust account (“Trust Account”) located in the United States with Continental Stock Transfer & Trust Company acting as trustee, and invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act of 1940, as amended (the “Investment Company Act”), as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

Liquidity and Capital Resources

As of June 30, 2021, we had approximately \$25,000 in our operating bank account and a working capital deficit of approximately \$105,619.

Our liquidity needs prior to the consummation of the Initial Public Offering were satisfied through the payment of \$25,000 from our Sponsor to purchase the Founder Shares (as defined in Note 5), and a loan from our Sponsor of \$25,000 under the Promissory Note (as defined in Note 1). Subsequent to the consummation of the Initial Public Offering, our liquidity will be satisfied through the net proceeds from the consummation of the Initial Public Offering and the Private Placement held outside of the Trust Account. In addition, in order to finance transaction costs in connection with a Business Combination, our Sponsor or an affiliate of the Sponsor, or certain of our officers and directors may, but are not obligated to, provide us with Working Capital Loans.

Based on the foregoing, management believes that it will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, we will be using the funds held outside of the Trust Account for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Results of Operations

Our entire activity since inception up to June 30, 2021 was in preparation for our Initial Public Offering. We will not generate any operating revenues until the closing and completion of our initial Business Combination, at the earliest.

For the period from March 9, 2021 (inception) through June 30, 2021, we had a net loss of \$619 related to formation costs.

Contractual Obligations

Registration Rights

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans, if any (and any shares of Class A common stock issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans), are entitled to registration rights pursuant to a registration rights agreement signed upon the consummation of the Initial Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of the initial Business Combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

We granted the underwriters a 45-day option from the date of the final prospectus relating to the Initial Public Offering to purchase up to 3,000,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price, less underwriting discounts and commissions. The underwriters fully exercised the over-allotment option on September 28, 2021.

The underwriters were entitled to an underwriting discount of \$0.20 per Unit, or \$4.6 million in the aggregate, paid upon the closing of the Initial Public Offering. In addition, the underwriters were entitled to a deferred fee of \$0.35 per Unit, or approximately \$8.1 million in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

Critical Accounting Policies

Deferred Offering Costs

We comply with the requirements of Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) Topic 340, “Other Assets and Deferred Costs,” paragraph 10-S99-1. Deferred offering costs consist of legal, accounting, underwriting fees and other costs incurred through the balance sheet date that were directly related to the Initial Public Offering. Offering costs are allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs allocated to derivative warrant liabilities are expensed as incurred, presented as non-operating expenses in the statement of operations. Offering costs associated with the Initial Public Offering are charged against the carrying value of the Class A shares upon the completion of the Initial Public Offering.

Net Loss Per Share

We comply with accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share.” Net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. At June 30, 2021, we did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of our company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

Recent Accounting Pronouncements

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, “Debt-Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging-Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity” (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on September 28, 2021. Adoption of the ASU 2020-06 did not impact the Company’s financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards updates, if currently adopted, would have a material effect on the accompanying financial statements.

Balance Sheet Arrangements

As of June 30, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

JOBS Act

The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We qualify as an “emerging growth company” and under the JOBS Act are allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, the financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our Initial Public Offering or until we are no longer an “emerging growth company,” whichever is earlier.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of June 30, 2021, we were not subject to any market or interest rate risk. The net proceeds of the Initial Public Offering, including amounts in the Trust Account, will be invested in U.S. government securities with a maturity of 185 days or less or in money market funds that meet certain conditions under Rule 2a-7 under the Investment Company Act of 1940, as amended, that invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

We have not engaged in any hedging activities since our inception, and we do not expect to engage in any hedging activities with respect to the market risk to which we are exposed.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of June 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the evaluation date, our disclosure controls and procedures were effective.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Table of Contents

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2021 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II-OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our final prospectus for our Initial Public Offering filed with the SEC on September 27, 2021. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. As of the date of this Quarterly Report, there have been no material changes to the risk factors disclosed in our final prospectus for our Initial Public Offering filed with the SEC on September 27, 2021, except we may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities

On June 7, 2021, our Sponsor purchased 5,750,000 shares of our Company's Class B common stock, par value \$0.0001 per share (the "Founder Shares"), for an aggregate price of \$25,000. The Initial Stockholders agreed to forfeit up to 750,000 Founder Shares to the extent that the over-allotment option was not exercised in full by the underwriters, so that the Founder Shares would represent 20.0% of the Company's issued and outstanding shares after the Initial Public Offering. The underwriters fully exercised the over-allotment option on September 28, 2021; thus, these 750,000 Founder Shares were no longer subject to forfeiture.

Simultaneously with the closing of the Initial Public Offering, on September 28, 2021, we consummated the private placement ("Private Placement") of 11,700,000 warrants (each, a "Private Placement Warrant" and collectively, the "Private Placement Warrants") at a price of \$1.00 per Private Placement Warrant to the Sponsor, generating proceeds of \$11.7 million.

These issuances were made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

No underwriting discounts or commissions were paid with respect to such sales.

Use of Proceeds

In connection with the Initial Public Offering, we incurred offering costs of approximately \$13.2 million (including deferred underwriting commissions of approximately \$8.1 million). Other incurred offering costs consisted principally of preparation fees related to the Initial Public Offering. After deducting the underwriting discounts and commissions (excluding the deferred portion, which amount will be payable upon consummation of the Initial Business Combination, if consummated) and the Initial Public Offering expenses, \$234.6 million of the net proceeds from our Initial Public Offering and from the Private Placement of the Private Placement Warrants was placed in the Trust Account. The net proceeds of the Initial Public Offering and certain proceeds from the sale of the Private Placement Warrants are held in the Trust Account and invested as described elsewhere in this Quarterly Report on Form 10-Q.

There has been no material change in the planned use of the proceeds from the Initial Public Offering and Private Placement as is described in the Company's final prospectus related to the Initial Public Offering.

* These certifications are furnished to the SEC pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and are deemed not filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

** To be filed by amendment.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized on this 8th day of November, 2021.

DIRECT SELLING ACQUISITION CORP.

By: /s/ Dave Wentz
Name: Dave Wentz
Title: Chief Executive Officer
(Principal Executive Officer)

CERTIFICATION
PURSUANT TO RULES 13a-14(a) AND 15d-14(a)
UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Dave Wentz, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended June 30, 2021 of Direct Selling Health Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and internal control over financial reporting (as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f)) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
